

CAPABILITY STATEMENT

CORE COMPETENCIES

- Xtreme Cube™ are custom-built modular structures that offer unlimited applications and mobilizations that conventional buildings, trailers, portable shelters and containers, used for similar purposes, simply cannot match.
- Portable, durable and entirely customizable, Xtreme Cube™ structures are multi-story capable structures, meet the same code requirements as traditional buildings and are available in lengths up to 60 ft.
- All Cube configurations start from a structural steel space frame that can be customized to exact requirements, including walls, doors, windows, electrical, HVAC, plumbing, data, décor and furnishings, and are delivered turnkey with plug and play utility connections.
- Xtreme Cubes systems utilize patented technology developed in-house.
- Xtreme Cubes are easy to transport and reconfigure, which means that a single Cube structure can be utilized for various projects in different locations, multiple times.
- All Xtreme Cubes have a versatile corner design for easy pick-up, connections and anchoring on-site.
- They also feature integrated forklift pockets for ease of movement, without requiring specialized equipment.

DIFFERENTIATORS

- Manufacturing time of 90 – 120 days
- Speed to produce is typically 90 days from design approval
- Steel beamed structures exponentially stronger than wood beamed structures or shipping containers.
- Fully modular and customizable for turn-key operations
- Flexible for easy transport between operations or for permanent placement
- Fully permitted for use from the factory

COMPANY DATA

Type of Business: Modular and prefabricated steel beam cube structures

Type of Work: Manufacturer, design, consulting services

SBA: Yes, small business

State of Incorporation: Delaware

Established: 2008

Licenses & Certifications: Underwriters Laboratory, Intertek, American Welding Society, American Bureau of Shipping

DUNS: 081368708

CAGE Code: 862L3

NAICS: 332311, 236115, 236117, 332420, 332439, 532490

NIGP: 15500, 15510, 15512, 15549, 15573, 90925, 96762

REPRESENTATIVE USES

Over the past ten years, Xtreme Cubes have produced more than 2,140 cubes, comprising greater than 268,000 square feet of floor space being integrated into over 1,025 unique projects, such as:

Agriculture	Gun & firearm ranges	Restaurants
Classrooms	Lube & oil transfer	Restrooms
Concessions	Lunch rooms	Retail & dining complexes
Cultivation	Maintenance shops	Security
Data & IT centers	Man camps	Ticket booths
Design centers	Multi-unit housing	Tool storage
Explosives magazines	Offices & storage	UAV command & control centers
Field offices	Residential	Wash racks
