

XTREME OPTI-CLEAN CUBE MINI

COMBAT COVID-19

XTREME
CUBES CORP

Xtreme Cubes Corp., in partnership with Proguardeum Inc., has developed a relocatable, modular walk-in building designed to combat the spread of COVID-19 and other viruses and bacterias.

The Xtreme Opti-Clean Cube Mini (XOCCM) utilizes proprietary and patented technologies to safely deliver an EPA-FDA approved Proguardeum hypochlorous solution (HOCL) through our “dry mist” system. Hypochlorous has been safely used for decades to sanitize hospitals and in wound care. It is naturally produced in the human body and a common ingredient in many eye drops.

- ✔ **Safe for use on skin, clothing, and glasses. No protective equipment required. Just walk through.**
- ✔ **Proguardeum is a non-toxic, non-hazardous, pH neutral and safe pure disinfectant**
- ✔ **Proguardeum helps eliminate the spread of infectious surface and airborne pathogens**
- ✔ **1 Year Limited Warranty**
- ✔ **Delivery available nationwide**

FEATURES

- 44” W x 71” L x 94” H (with wheels)
- Motion sensor
- 2 fogging nozzles
- Overhead dome light
- Unit is on casters
- Hand disinfection dispenser
- Temperature monitor
- Emergency shutoff
- Low disinfectant alarm
- (2) Clear vinyl curtains with magnetic closures
- 4-gallon tank
- Weighs 662 lbs.
